BACKGROUND AND INTERESTS

I am currently a Postdoctoral Fellow in the Department of Computer Science at the University of Toronto. I have published over 10 academic papers. I hold a PhD in Computer Science (2019) from the École Normale Supérieure de Lyon, France, with a thesis topic on algorithms for big data analytics. My research covered mechanisms based on queueing theory, graph theory, reinforcement learning, and big data analytics.

Despite my research experience, I had over 13 years of professional experience in industrial process analysis, software development and engineering, and IT management projects.

My research interests include machine learning, edge/fog computing, big data analytics, reinforcement learning, Internet of Things, optimization and placement problems, scheduling, and real-time systems.
